

January 14, 2002

Ms. Renata Hesse
Antitrust Division
Department of Justice
601 D Street NW, Suite 1200
Washington, D.C. 20530

Dear Ms. Hesse:

I wish to offer my comments about the proposed Microsoft settlement.

First, I like the provision that Microsoft would not retaliate against software or hardware developers who make products that compete with Windows.

Second, I also think that the provision that sets up a technical committee to assure compliance is good.

These are just two reasons why this settlement ought to be workable.

Sincerely yours,

Nonna Frazier
